Spooltech delivers cost effective, turn-key solutions in the Oil & Gas sector. Our customers count on us to deliver high-quality, on demand welding and fabrication. From design to delivery, our Project Specialists are here to guide you through every step.

Capabilities

Facility

13 Acres
20,000 Sq.Ft. Under Roof

Lifting

28' Hook Height
20T Capacity

Services

Cladding

GMAW
GTAW
SAW
SMAW

DNV Engineering & Manufacturing

Heat Treatment

Localized

Fabrication

FCAW
GMAW
GTAW
SAW
SMAW

Plate Processing

Hi-Def Plasma – 20' X 10' X 3/8"
Oxy/Fuel Torch – 20' X 10' X 4"
CNC Rolling – 118" X 1.125"

Non Destructive Examination

Surface Examination Processes

Copper Sulfate Testing
Hardness Testing
Liquid Penetrant (PT)
Magnetic Particle (MT)
Visual Examination (VT) (CWI)
Positive Material Identification (PMI)

Volumetric Examination Processes

Radiographic (RT)
Ultrasonic (UT)
Phased Array Ultrasonic Examination (PAUT)

Impact and Strength Processes

Load Testing
Drop Testing
Hardness Testing

On time and on budget

Equipment that fails to meet specific design specifications can bring production to a halt. We ensure your equipment is built right from the start.

Our qualified welders and fitters are experts at creating the highest quality metal fabrication for the most rigorous use cases. We deliver custom, cost-effective projects on short lead times, keeping you on budget and in production.

Whether your project entails design and engineering, custom fabrication, or on-site repair, Spooltech is your solution for custom welding and fabrication.

Contact a Project Specialist now to discuss your project's needs.
