WE ARE COMMITTED TO YOU,
OUR CUSTOMER.

SPOOLTECH
CREATE & INNOVATE

PIPE SUPPORTS & STRUCTURAL FABRICATION

GULF COAST PREMIER FABRICATOR

Spooltech has earned the distinguished reputation as a leading structural fabricator in the Gulf Coast region. Our team is recognized for their commitment to the highest standard in welding, exceptional quality, and meticulous attention to detail, consistently exceeding customer expectations. We adhere to rigorous processes and best practices that meet even the most stringent industry standards.

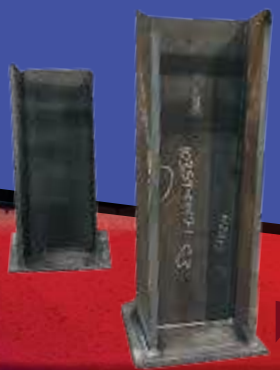

WE'VE GOT YOUR BACK.

With three fully equipped facilities totaling over 80,000 square feet of manufacturing space, along with a highly reliable supply chain, we prioritize every project and deliver industry-leading turnaround times—all at competitive prices.

PIPE SUPPORT

- ✓ *Pipe Shoes / Saddle Shoes*
- ✓ *Dummy Legs / Trunnions*
- ✓ *Wear Pads / Bearing Pads*
- ✓ *Reinforcement Pads*
- ✓ *Lifting Lugs*

SERVICES & CAPABILITIES

- DRILLING
- BENDING & FORMING
- WATER JET CUTTING
- TURNING
- GROOVING
- MILLING
- BORING
- OXY-FUEL CUTTING
- PIPE PROFILING
- HI-DEF PLASMA CUTTING
- FLANGE PRODUCTION & MODIFICATION
- NDE & CERTIFIED WELDING INSPECTIONS
  - Magnetic Particle Testing (MPT)
  - Liquid Penetrant Testing (PT)
  - Ultrasonic Testing (UT)
  - Radiographic Testing (RT)
  - Visual Testing (VT)
- ON-SITE QUALITY ASSURANCE
- CLADDING: INLAY/OVERLAY
- HEAT TREATMENT
- SMALL & LARGE DIAMETER PIPING 1/2" - 72"
- HIGH PRESSURE: UP TO 25,000 PSI

PIPE SUPPORTS & STRUCTURAL FABRICATION

OUR VALUE PROPOSITION

- On-Time Deliveries
- Decreased Delays
- Improved Budgeting
- Minimized Expediting Fees
- Transparency & Planning
- Live Tracking & Progress Reporting
- Fewer Shortages and/or Overages100%
- Material & Qualification Traceability
- Industry Best Identification
- ISO Packaging /Tagging for Field Supports

SPOOL DETAILING & ADVANCED MATERIAL MANAGEMENT

Our in-house, data-driven detailing and material management process deliver unmatched results.

MULTIPROCESS WELDING

Machine cutting and welding equipment in each facility to increase efficiency and reduce production costs.

ISO-CERTIFIED QUALITY PROGRAM

Best-in-class global quality management systems with a culture of continuous improvement.

NON-DESTRUCTIVE EXAMINATION AND HEAT-TREATING SERVICES

We provide in-house Non-destructive Testing (NDT) and Heat-treating services to ensure the integrity and performance of welded materials. Using advanced NDT methods like ultrasonic, radiographic, and magneticparticle inspections, we identify flaws without damaging the material. Our heat-treating process reduces residual stresses from welding, enhancing strength and preventing defects. Each service is customized to meet project-specific requirements, ensuring safety, quality, and industry compliance.

CLIMATE-CONTROLLED BLASTING & COATING

State-of-the-art painting and blasting booths to support our customer's projects.

REALTIME SPOOL TRACKING WITH ADVANCED PROJECT ANALYTICS

Our global ERP system enables seamless execution of large capital projects across all of our facilities, with each leveraging its own information management platform.

STANDARDS & CERTIFICATIONS

WELD PROCEDURES

TIG	FCAW
MIG	SMAW
SAW	Charpy to -75 F

INDUSTRY CERTIFICATIONS:

ASME Section VIII	AWS D1.1
ASME B31.3, B31.1, B31.8	PED 97/23/EC Compliance
API 6A Compliance	NACE MR0175
DNV Reviewed	ASME U, R, and, S Stamp

MATERIAL CAPABILITY:

4130	A538	Hastelloy
F22	304/316 Stainless	P1: Group 1&2
4140	Inconel
